

Eliminates landfill use
& creates a new resource!

28 Gallon – TakeAway™ Recovery System®

Convenient, Cost-Effective Medical Waste Repurposing Solutions

28 Gallon – TakeAway™ Recovery System

The 28 Gallon – TakeAway™ Recovery System represents a versatile and very economical method for management of your used needles, syringes, red bag and other medical waste. The TakeAway™ Recovery System completely eliminates the need for a costly, inconvenient pickup service – *without having to change your sharps container style.*

The 28 gallon container holds up to 50 lbs. of both sharps containers and red bags.

The TakeAway™ Recovery Systems are a first of its kind medical waste solution that completely eliminates landfill use and creates a new resource used in the manufacture of materials for industrial applications. *To learn more about this process, visit nolandfillsrequired.com.*

28 Gallon – TakeAway™ Recovery System®

28 Gallon – TakeAway™ Recovery System is an excellent system for use in:

- Veterinary Practices
- Medical Clinics
- Dental Offices
- Occupational Medicine Clinics
- Long-Term Care Facilities
- Other Commercial Settings

Sharps® Advantages

- No landfills required
- Creates a useful raw material
- Certified and approved for containment of your own traditional non-mailable sharps containers
- Holds your sharps containers and red bags
- Reduces costs by as much as 50% or more
- Is proven, convenient, and easy to use
- Offers online tracking and proof of destruction confirmation via SharpsTracer™
- Is vertically integrated – manufacturing through disposal
- Complies with applicable regulations
- Does not require a contract
